1. The information disclosure statement (IDS) submitted on September 28, 2010 which is a copy of an IDS originally submitted August 2, 2006 was filed, based on the evidence submitted, before the mailing date of the non-final rejection on February 5, 2010. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

It is noted that the US and foreign patent documents have been lined through by the examiner. This is because they are already of record in the PTO-892 sent with the above noted non-final rejection.
